PROFESSIONAL SUMMARY

Experience in Quality Assurance area, leadership, negotiation skills and strategic vision and versatility to work on others positions as needed. Working under pressure without losing focus on the goals.

Experience in Analysis and Non Conformity investigation, international regulations (ANVISA, INVIMA, COFEPRIS, DIGEMID, FDA, etc.), Key Performance Indicator, decision-making, audits (internal and external), processes improvement, process management (training and methods).

Process improvement: implementation of training effectiveness check at Abbott Rio de Janeiro site. KPI control at Prati Donaduzzi.

Excellence Awards for supporting training process, activities beyond position's scope and supporting the packaging area in GMP.

Currently a Quality Assurance analyst at Abbott since May/2019. I'm seeking a career change to answer a long overdue call of passion for Programming and Software Development. Always improving my skills in JavaScript, HTML, CSS and Python.

Initially I graduated in Chemical Engineering at Federal University of Pernambuco. During my graduation, I attended 4 subjects focused in programming and I improved my abilities in logic. It was during these subjects that I found my passion.

PROFESSIONAL EXPERIENCE
